

Latifa School for Girls

Numeracy Whole School Continuum

Aims:

- To become fluent in the fundamentals of mathematics through varied and frequent practice with complexity increasing over time.
- Develop conceptual understanding and ability to recall and apply knowledge rapidly and accurately.
- Reason mathematically; follow a line of enquiry, conjecture relationships and generalisations.
- Develop an argument, justification and proof by using mathematical language.
- Problem solve by applying knowledge to a variety of routine and non-routine problems. Breaking down problems into simpler steps and persevering in answering.

Key Points: Mathematical fluency, confidence, numeracy and mathematical reasoning, apply arithmetic, measures, estimates, check, apply geometric and algebraic understanding, link probability to risk and uncertainty, data, routine/non-routine problems, breaking down problems into simpler steps. Should read and spell mathematical vocabulary at a level consistent with their word reading and spelling.

KS1 – Year 1 & 2

Develop confidence and mental fluency with whole numbers, counting and place value. Working with numerals, words and the four operations, including practical resources. Develop ability to recognise, describe, draw, compare and sort shapes. Measures to describe and compare quantity. Number bonds to 20.

Lower KS2 – Year 3 & 4

Increasing fluency with whole numbers and four operations including number facts and place value. Efficient written and mental methods and perform accurate calculations with increasingly large numbers. Problem solving in fractions and decimal place value. Analyse shape and properties and describe relationships. Accurate use of measuring instruments. Memorise up to 12 times tables.

Upper KS2 – Year 5 & 6

Understanding larger integers. Multiplication and division of fractions, decimals, percentages and ratio. Use of efficient written and mental calculation. Introduce language of algebra for problem solving. Classification of shape with complex geometric properties and associated vocabulary.
